

Donley's is seeking an experienced **Surveyor / Field Engineer** in our Concrete division to assist with projects in the Charleston, SC area. This position has growth potential for the ideal candidate.

The successful candidate will be responsible to provide layout for location and elevation of concrete foundations, columns, walls, embedded items, slab-on-grade and supported decks. Complete as-built of placed concrete as required and conduct maturity testing of concrete.

QUALIFICATIONS

1. Associate's or Bachelor's degree in surveying, civil engineering, or a related field
2. Minimum of 2 years of experience as a field engineer in construction layout of concrete structures, and familiar with total stations, and proficient in reading construction drawings.
3. The ability to obtain South Carolina surveyor's license within 4 years and willingness to obtain a surveyor's license in North Carolina and potentially other states that Donley's may perform work
4. Display strong leadership qualities
5. The ability to adapt to and work with diverse individuals.
6. Attention to details
7. Organized
8. Excellent communication skills
9. Team oriented

Additional responsibilities include as-built and quantity take-offs. You will need to be comfortable using AutoCAD, MS Excel, and MS Outlook. Carpentry background with concrete formwork a plus!
