

## **Survey CAD Technician**

Dennis Corporation, a full service engineering, surveying, and construction management firm headquartered in Columbia, SC, is expanding and is looking for motivated individuals to join our team. In addition to very competitive salaries, we offer excellent benefits which include paid healthcare, vacation, 401k.

Under the direction of the Survey Manager, the Survey CAD Technician will assist with the development of the digital survey databases for transportation, building, boundaries, field topography, right-of-way plats, construction staking and other required detailed survey drawings. The position requires work to typically be performed in the office. Transportation and Land Development survey experience required with emphasis in AutoCad Civil 3D database development.

- Per specific project deliverables develop MicroStation or AutoCad Civil 3D and 2D database files for transportation projects and site development including minor and major roadways, pedestrian, intersections, bridges, site development large and small tracts, grading, individual lots, as-builts, etc.
- Prepare ALTA/ ACSM Land Surveys, Boundaries, Topographic, Utility Surveys, As-builts, Plan & Profiles and other drawings per project requirements.
- Incorporate project research / record information into database that define the boundaries or area of real property and establish rights-of-way on area roads and properties.

Working at Dennis Corporation offers benefits such as:

- Access to the latest technology and software
- Flexible Hours
- Opportunity for Overtime
- Working with Great People!
