

Geomatics Field Supervisor I

Position Highlights:

If you're looking to start or continue your career in the Land Surveying industry in an environment that encourages professional growth and rewards hard work, the Geomatics group at Stewart is the place for you. Our Geomatics staff is immersed in an exciting, fast-paced working environment that performs work on both DOT, locally administered (Municipal), university and other great projects. If you are interested in joining the fun, yet professional, Geomatics team at Stewart, please apply today!

Position Responsibilities:

In this exciting role, the selected candidate will work on many different types of surveys including but not limited to boundary, ALTA, topographic, existing conditions, right-of way, transmission line, transportation, construction and other types of land surveys. This candidate must love working outdoors and in different climate conditions.

Position Qualifications:

- High School Degree or Equivalent Required.
- 3-6 Years of Related Experience.
- NSPS Certified Survey Technician Level II Preferred.
- Good mathematical, basic computer and communication skills.
- Possess a valid driver's license and ability to pass a driving record check.
- Pass a drug test.
- Dependable and physically able to work outdoors and on construction sites in all weather conditions.
- Willing and able to work overtime as required.
- Willing and able to travel for extended periods of time.

Our Team:

Stewart's Geomatics group captures, processes and delivers spatially acquired data in a wide variety of avenues to include traditional land surveying, global positioning systems, laser scanning and unmanned aerial systems (drones). This information can be presented through traditional CAD drawings, Geographic Information Systems (GIS), 3D models, photography, videography or combination thereof. If you love technology, the outdoors and the built environment, then jumpstart your career and join our amazing team of technicians and professionals. If you're lucky (and licensed), we might even let you take one of our drones out for a joyride.

Stewart is an Equal Opportunity Employer and Affirmative Action Employer, Including Individuals with Disabilities and Protected Veterans.
