

WELCOME
SCSPLS PRESENTS THE
2021 HYBRID CONVENTION AND TECHNICAL CONFERENCE

In normal years, the SCSPLS Convention and Technical Conference is a great opportunity for society members to meet on the state level. Here we get to see old friends and acquaintances and meet new ones.

COVID-19 changed the way we approached this year's conference. As with so many things, COVID-19 has challenged us to overcome and adapt. This year, we are excited to offer the same quality programs with a hybrid conference.

I appreciate each of you dedicating your time and money to attend the conference this year. As you will see, it is less than 1/3 the size it has been in the last few years. SCSPLS worked extremely hard to offer you the ability to earn the needed Professional Development Hours in person for a limited few as well as online.

I would like to thank our exhibitors and sponsors as well as our Education Sponsor, the SC State Board of Registration for Professional Engineers and Surveyors. They contribute much to the success of our entire program. Be sure you thank our sponsors and make the rounds to see what is new at our exhibitor booths. This year, we have virtual exhibitors as well. Be sure to check them out on the Virtual Conference Platform.

For those of you who are attending in person, you are also entitled to use the SCSPLS Conference Platform. Please take the time to set up your username and password. You will be able to view all the presentations to expand your knowledge on all things surveying business and technology.

Try to make the best of it this year. While you are here, I hope you have a good time, learn something that will make you a better surveyor and share your knowledge in the sessions. We hope to return to normal in 2022.

Thank you for coming to this 2021 SCSPLS Convention and Technical Conference.

Dee Dee Schwacke
SCSPLS President
