

## Survey Company CAD Technician

Ed Holmes and Associates Land Surveyors, PA is currently seeking applicants for Survey Company CAD Technician for full time employment. Said CAD Technician will work under the direct supervision of licensed Professional Land Surveyors, and will be primarily responsible for drafting survey plats, such as Boundary Surveys, Topographic Surveys, As-builts and Easements, and ALTA Surveys. Based in Asheville, NC, EHA serves both private and public entities on design and construction related projects in North Carolina, South Carolina, and Tennessee. This position offers an excellent opportunity to learn and advance under the direction of multiple licensed surveyors in a supportive environment and is especially beneficial for those seeking to progress into professional licensure.

### Description

- Work in family-oriented team environment
- Out of town overnight travel not required
- Excellent pay and full array of benefits
- Assist with deed/plat/records research
- Analyze field data
- Point management and calculations
- Operate AutoCAD with Carlson Survey software
- Draft Boundary Surveys, Topographic Surveys, As-Builts, Easements, and ALTA Surveys

### Position Requirements

- High School Diploma or G.E.D
- Valid driver's license and good driving record
- Minimum 1+ years of progressive CAD experience
- Minimum 1+ years of experience as survey field technician
- Must be willing and able to listen, learn, and teach others
- Good communication skills and ability to work in a team environment
- Familiarity with Carlson Survey and AutoCAD is preferred

Benefits Include: Health Insurance, Dental Insurance, Long and Short Term Disability Insurance, Safe Harbor 401(k), Health Savings Account, Health Reimbursement Account, Paid Holidays, Paid Time Off, Performance Bonuses, Professional Development Assistance, and Education and Training Expenses Paid.
